Welcome to Symnet

Hello, I'm proud to present you a simple database.

Symnet is a free database, where you can find informations.

It's like the internet but because you copy it from a Usb-stick or download it from the Internet Archive,

after that you can have all the information even offline.

The minimum requiredments are: A desktop-pc, notebook or laptop with at least 25 kb free storage and Windows 95.

Well I hope you can enjoy this database.

What is new in this version?

- One more dokument

- Text can have color

Stay tuned for any new versions :)
